Boy Scouts Will Trail the Signal Corps to Camp Site

MOVEMENT IS PROVING TO BE SUCCESS HERE

Scouts of Old Did Work That Is Crude Compared To That Of 1911 Scouts — Parents Taking Interest In Local Organization—Will Prove Benefit to Child's Mind and Body.

The boy scout movement in Coshocton is proving a most decided success, and Saturday morning the boys will begin the first real recreation work when they will start out on a long hike. They will cook and prepare their dinners before returning home.

The troop will leave Coshocton at 7 o'clock preceded by the signal corps. The latter will mark out the route by a series of signs adopted by the scouts. The trail of the signal corps will be followed by the main troop to the camping ground to be selected by the signal corps.

After arriving at the camp-ground the boys will build fires and cook their dinners. Each boy will carry two slices of bread, 5 cents worth of wieners and 5 cents worth of hamburger steak and a supply of eggs. The steak and wieners will be fried and the eggs boiled. The boys are given 20 minutes in which to prepare the fire and cook the meal.

At 11 o'clock a guard will be dispatched from the camp to meet the Rev. Frank Albus who will return Saturday noon from Philadelphia where he has been conferring with some of the high officials of the national boy scout movement.

At 1 o'clock the troop will return home. From this time on the boys will be given practical boy scout work. Military tactics have already been

WETS AND DRIES TO FIGHT AGAIN

Many Ohio Counties Propose to Vote on Saloon Question.

Columbus, O., Sept. 29.—Between now and the first of the year there will be numerous local option elections in Ohio. The three years' limit provided by the Rose law expired in Meigs and Warren counties this week, and before December 15 will expire in 53 other counties that voted dry in 1908. Each one of these counties will have an election, provided the wets are able to muster the necessary number of names to a petition calling for it.

Of the 88 counties in Ohio, 62 are dry and 26 wet. Of the 62 dry counties 57 were voted dry under the Rose county option law, while the other five were voted dry under the old local law. Twelve counties voted wet under the Rose law, while no attempt has been made to hold elections in the other 14 wet counties.

About 2,200 of the 1,371 townships of the state are dry. The dry area comprises 36,954 square miles and the wet area 4,106 square miles. The population of the dry area is 2,650,000 and the population of the wet area 2,117,121.

Revenues Show Decrease. As a result of county option there has been a marked falling off in public revenues. On July 1, 1911, there were 7,402 saloons in the state and at \$1,000 each they paid approximately \$7,400,000 in saloon tax into the public treasuries. On July 1, 1908, before the Rose county option law went into effect, there were 7,531 saloons in the state and they paid, during the year ending then, \$7,531,111.

Literature being put out by the Anti-Saloon league attempts to show that the tax rate is lower in dry counties than in wet, due largely to the fact that the expenses of government are less.

State leaders of the wet forces are predicting that a number of the counties now dry will go back to the wet column in the elections this fall. To this claim Wayne B. Wheeler, state superintendent of the Anti-Saloon league, replies: "For every dry county we lose to the wets, we'll make a dry county out of one that is now wet."

started with the wets and some are proving adepts at the art.

The following article is taken from the Boy Scout Manual telling the aim of the Boy Scouts:

"The Boy Scouts of America seek to supplement the various existing educational agencies, such as the church, home, school, boys' clubs, Sunday school, Boys' Brigade, Young Men's Catholic Assn., Young Men's Christian Assn., Young Men's Hebrew Assn., social settlement, etc. It seeks to promote the ability in the boys to do things for themselves, as well as for others. Its method is summed up in the term 'Scout-craft,' which is a combination of observation, education, handiness and ideals.

The activities of the Boy Scouts are as broad as boyhood and touch upon everything in which boyhood is interested; camp life and resourcefulness; but and mat making; the tying of knots; fire lighting; cooking; boat management; swimming; bicycling; finding the way in a strange country; noting details and landmarks; tracking animals by their spoor; getting the meaning from tracks and signs; stalking animals to photograph them and observe their habits; chivalry; unselfishness; courage; duty; charity; thrift; loyalty to country, to parents and those in authority; practical civility to women; community service in the doing of a good turn daily; cheerfulness; self-improvement; saving life from fire, drowning, gas fumes, runaway horses, panic and street accidents; first aid to the injured; the making of improvised appliances and ambulances; health, personal hygiene; sobriety; temperance; smoking; physical exercise; sanitation; food; cleanliness; patriotism; United States geography, history and the deeds that made our country; our navy and army; our flags and the insignia of rank of officers in our country's service; duties as citizens; helping the civic departments such as police, fire, etc. All of these are offered to the Boy Scout for his development, and as a field for the outlet of his activities."

Parents of the boys who have registered as Boy Scouts are much interested in the work.

FATHER OF STRICKEN FAMILY DIES FRIDAY

John Busser, Father of Family, Every Member of Which is Ill with Typhoid Fever Answers final Call At 10:30 O'clock Thursday Night — Funeral to Be Held Saturday.

John Busser one of the best known and highly respected farmers of the vicinity of Fresno died at his home after an illness of six weeks with typhoid fever Thursday night at 10:30. His death is doubly sad on account of the fact that this is the second death in the family within three weeks and all the other members of the family are sick with the dreadful disease. James the second eldest son died just three weeks ago today of typhoid fever. Mr. Busser was 48 years old and spent most of his life in the vicinity of Fresno. His untimely death will come as a severe shock to his many warm friends. Mrs. Busser and daughters Anna, Ella, Priscilla, Bertha and Lillian who have been seriously ill during the past five weeks are improving satisfactorily. The eldest son who has made his home in California for several years arrived home Friday morning about ten hours after his father died. The funeral services will be held Saturday afternoon at 2 o'clock. Rev. L. L. of the Chili Methodist Episcopal church will have charge of the services.

WILSON HAS NO SHOW IN RACE — Says Atlee

Senator Pomerene Spends Several Hours in Coshocton.

U. S. Senator Atlee Pomerene left on the afternoon Wheeling train for Canton and will go at once to keep an engagement in Milwaukee. He arrived in Coshocton Thursday evening and was the guest of his brother, Dr. Hester Pomerene on North Fourth street.

Quite a bevy of Coshocton men, Republicans as well as Democrats, called on the senator Friday morning at the law offices of F. E. Pomerene, and enjoyed a political chat with him.

The senator does not hesitate to declare for Harmon for president and declares with equal enthusiasm that he believes Harmon can carry Ohio against Taft and moreover is the only Democrat who can do so.

That the senator is for the governor for president is not surprising, when one remembers the excellent aid the governor gave him when he was making the fight for the senatorship. Ask like Rinner, or Ed Martter or any of the boys. They remember. The senator thinks that Champ Clark has been eliminated from the presidential race because of his remark about the annexation of Canada, which undoubtedly killed the reciprocity deal with the northern neighbor.

When asked what he thought of Wilson's chances, he said that the New Jersey governor was steadily losing ground.

He shrugged his shoulders when the query was propounded about Harmon and the wet and dry issue, in which the governor had promised both sides aid. The senator was not conversant with that chapter of history. One local democrat who was present however, summed it up nicely with the remark that he never saw a man carry whisky on one shoulder and water on the other, and then never mix his drinks, better than Harmon had done.

Senator Pomerene is straightforward and enthusiastic in his support of the Ohio man for president, and when asked whether that means he may no longer be classed as a Dry democrat himself, only smiles that inscrutable smile of his.

PENNSY TRACK INSPECTION TO START OCT. 4

Prizes Will Be Given For Best Kept Stretch of Tracks.

The general manager of the Pennsylvania railroad, accompanied by a staff of about 350 officials of the operating department, will start on the thirty-ninth annual track inspection Oct. 1.

During this trip the awards for track excellence, which the company offers every year in order to stimulate friendly competition between the different divisions, will be made. To form a basis for these awards, which amount to \$5,100, a committee of maintenance of way officers goes over the line every few weeks. An instrument has been especially designed to use in this connection, which registers every vibration of the car. Knowing that their work is being watched and the results noted, each supervisor bends every effort to keep the roadbed of his division as smooth as a floor. Officials say that the Pennsylvania's reputation for comfortable travel owes much to his healthy rivalry among all maintenance of way employees.

The first prize is \$1,200, of which \$800 goes to the supervisor and \$400 to the assistant supervisor of the best division. There are four other prizes of \$500 each, of which \$300 goes to the supervisors and \$200 to the assistant supervisors. There is also a premium for the division which shows the greatest improvement during the year; the supervisor and assistant supervisor receive \$700 and \$300 respectively. This year's winners will be announced at Harrisburg at the end of the first day's run.

Manager Harry Bostwick of the Kirby store found the roll of greenbacks on the store floor Friday morning, evidently where it had dropped out of someone's pocket. It was composed of yellow backs, greenbacks, silver certificates, etc., to a comfortable sum—plenty big enough to buy any man or woman a mighty fine "outfit" remarked Mr. Bostwick. He holds the money ready to turn it over to the owner who will be asked to name the amount lost, and identify it.

MONEY BLEW OUT OF CAR WINDOW

But Lucky Katie Got Back Again in Quick Time.

John Adams, the popular actor whose loss of his \$260 diamond of a Panhandle car window, had all his friends, may now have a heart.

The other day an emigrant lost \$20 out of a car window at Adams Mills and Trivway was found and returned to him. The diamond was lost out of a car window near Conesville, being the setting. He has never from it although he offered a reward.

Here is the story of the lost diamond woman as told by the Transcript.

The other day Panhandle bound passenger No. 3 was rapidly down the level track through Adams Mills, Trivway. In an emigrant car at the rear of the special Katie White, an emigrant from the Pacific coast, sat by a window. She got out her roll of money and was leading through it, probably had done a hundred on the journey from New York. She had a yellow backed bill in her hand and was fondling it and getting satisfaction from the "pastime" a vagrant puff of wind whisked the XX gold certificate from her hand and took it out the window.

Twinkling, Katie screamed and herself out over the window. She watched the slip of paper as it flew along after the train, sucked by after-lift. She soon lost sight of money and settled down in her groaning as if her heart would break. The conductor was told of the hap, and when the train pulled Trivway, he asked Reed Henry, a sylvan ticket agent, to look down the track for the \$20. When No. 2 had departed Mr. Adams called up Gray's store at Adams Mills and asked that a search be made before long Adams Mills called said the money had been found. Henry called Columbus and had station master inquire among the emigrants for Katie and when found hand her \$20 and charge same to Trivway office. Katie nearly dropped with delight when the \$20 was handed her and she possibly the American's greatest wonder.

Imagineable. And, come to think of it, did you ever hear anything to this record? Katie's journey was interrupted and yet she had dropped \$20 from the car at Adams Mills, never to see it again, and it caught up with her at Columbus! If you are going to lose money lose it along the Panhandle.

Italians Continue to Desert Tripoli In Droves.

Tripoli, Sept. 29.—Only 90 Italians are left in Tripoli. Of these 10 are journalists. The consul general is still here, as are the employees of the Bank of Rome. Others are fleeing constantly. Crowds surround the consulates of the different powers demanding protection. The shipping offices are besieged by fugitives of all ages and nationalities, Maltese, Greeks, French, Arabs, Turks, business men and workmen. The panic is extraordinary, extending even to the oldest citizens and to notables. The streets are deserted, the cafes, shops and offices closed, and business is at a standstill.

There is a famine at the village of Tacuira, two and a half miles from Tripoli. It is feared that the villagers will descend upon the city.

RHEUMATISM SELDOM KILLS

The Chief Danger Is from the After-Effects Caused by the Condition in Which It Leaves the Blood.

Statistics show that very few victims of rheumatism die from the disease directly. The worst feature of the disease from the standpoint of mortality, is the legacy of thin blood and shattered nerves that it leaves.

The best treatment for rheumatism is rest, in bed if possible, and a supporting or tonic medicine which will keep up the strength of the patient and repair the thinning of the blood which is always present in this disease. Dr. Williams' Pink Pills are such a remedy and have been used with marked success in thousands of cases.

Mr. Myron Adams, a resident of Bad Axe, Mich., has been permanently cured by this treatment and his gratitude prompts him to make the following statement for the benefit of those who still suffer:

"After working for a long time in the lumber camp, going through exposure to dampness and suffering from colds," he says, "I had an attack of rheumatism, that lasted two years. It affected my arms and shoulders and quick, sharp pains ran all through my left side. My arms, principally the elbows, were sore to the touch. My back was stiff and the kidneys ached. I could not lie down to sleep, because the pain would then be too severe, but had to be bolstered up in a chair. I had no appetite, could do hardly any work and began to think life wasn't worth living."

"I had different doctors, who helped me for a time, but the trouble always came back. I read about Dr. Williams' Pink Pills for Pale People in a paper and, chancing to talk to a neighbor about them, found he had been cured of rheumatism by these pills. I immediately bought some and could see after taking a few boxes that they were helping me. I took them a while longer and haven't had a touch of the trouble since. I cannot tell how much I value Dr. Williams' Pink Pills for Pale People."

These pills can be obtained at any drug store or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., at 50 cents per box; six boxes for \$2.50. A valuable booklet, "Diseases of the Blood," will be sent free upon postal card request.

TALKS AGAINST CLASS HATRED

Sectional Feeling Also Denounced By President Taft.

Waterloo, Ia., Sept. 29.—In an address on the relation of the government to the business of the country which he delivered here before an audience of several thousand people, President Taft said the people of every section and class of this country were all in the same boat and that to persist in sectional vindictiveness against the prosperity of another section of the country would enforce business prostration throughout the land as surely as night follows day. "We are all tossed by the same waves," he cautioned them.

His address was a clear effort to point the way "down the middle of the road." The president advocated progress in the movement to prevent the abuses of monopoly and undue advantage, but declared that the time had come to call a halt in hostility to business and more prosperity or success. He asserted that generally the laws now enacted were sufficient to assure the correction of those evils, and counseled only helpful legislation for the future. At the same time he emphasized his determination to enforce those laws.

The attorney general, he said, was acting under his orders in the prosecution of the trusts and had no discretion whatever to stay the hand of the government, and so long as such combinations existed they would be prosecuted under the law.

Points Out Evils.

He pointed out that the evils which the interstate commerce law and the anti-trust law had been adopted to correct were in process of being remedied; that blind anger against the tariff because it was excessive was dangerous; that the public interest demanded the adoption of a sensible currency system in which the merchants of the country could have confidence, and that there was now enough restrictive legislation to secure the prevention of abuses by monopoly and that the people of the country should work together in an effort to restore business tranquility.

The president attacked the radical political declamations of the progressive politicians of the middle west, asserting that speeches made to arouse prejudice in the people of one section of the country against the business of another were made by the blindest of men. He said that the time had come for the people of the country to realize the folly and danger of legislation encumbered by sectional prejudice, and declared that the people should not allow any set of men, actuated by their political ambitions, to mislead them into hostility against the prosperity of other sections of the country, for this would certainly work injury to all the nation.

It was not progressive, the president said, to legislate against a railroad because it was a railroad, and that beyond the point of regulating them by statutes so as to prevent their recurrence to the past evils, it was of the highest importance to the country to see that the railroads had reasonable profits and that their shareholders had a profit. Sleep, clothes and wholesome food was what made for the happiness of men, and legislation that denied a railroad the right to make a reasonable profit or extreme agitation that upset business worked more harm on the wage-earner than the shareholder. Any other view, he declared, was lacking in sanity, and it was the unreasonable antagonism which political expediency had developed against business enterprises that gave ground to the complaints of the business men of the country.

A creditable reflection

Nothing reflects more credit on the household than attractive floors and wood-work.

They radiate good cheer; give "hubby" the home staying habit and the housewife a reputation for thrift, cleanliness and taste.

SPARTAN STAIN

"THE FAULTLESS FINISH"

is a hard, elastic varnish stain, easy of application and of unlimited home beauty value.

We make Spartan Stain. If you want to know our reputation as wood finish specialists, ask the fine furniture and piano manufacturers.

These trades demand the best finishes it is possible to make. But few houses can meet their exacting requirements. They will tell you that we are in the front rank of those few.

The best way to test Spartan Stain is to get a can and get busy.

ness worked more harm on the wage-earner than the shareholder. Any other view, he declared, was lacking in sanity, and it was the unreasonable antagonism which political expediency had developed against business enterprises that gave ground to the complaints of the business men of the country.

Calls On the People.

The president called on the people of the country to put their shoulders together to promote the business prosperity of the country by frowning down the attacks engendered by a desire to arouse sectional prejudice.

Senator Cummins, the insurgent Iowa senator, was conspicuously absent from the delegation of state officials who welcomed the president to Iowa at his first stop at Waterloo.

Hogan to Investigate the Charge that Poolrooms Get Race News.

Columbus, O., Sept. 29.—"Telephone wires will not be used in Ohio in aid of racketeering gambling with the consent of the attorney general's department," declared Attorney General Hogan, discussing the charges filed with him and Governor Harmon by Timothy M. Murphy of Chicago, that wires leased from the United States and the Cincinnati and Suburban Telephone companies are used to telegraph racing tips to poolrooms in Toledo, Cincinnati, Dayton, Hamilton and Cleveland. The attorney general started promptly to sift the information furnished by Murphy. To that end he made an appointment for Tuesday with Harry M. Daugherty, attorney for independent telephone companies, and President F. A. Davis of the United States company, to inquire about the system of leasing wires.

BIG STRIKE IS CERTAINTY

Will Affect Harriman Lines and the Illinois Central

Chicago, Sept. 29.—International presidents of the shop crafts affiliated with the system federation of railway employees are in session here to lay plans for the general strike of all members of the system, on both the Harriman lines and the Illinois Central system, which promises to be one of the hardest-fought labor battles witnessed in years.

At the beginning of the strike, which is expected tomorrow, it is said between 75,000 and 100,000 men will be involved. The labor officials predict that within a week after the strike is called the roads will be paralyzed. They declare the belief that the strike will spread to other roads, and add that a general railway crisis such as America has never faced is impending.

Officials Pessimistic.
Railroad officials are pessimistic. They declare, in confidence, their belief that the strike can not be averted. They say they can and will make no further concession to the men; that they will never grant a conference to the representatives of the system federation as such.

Vice President Kruttschnitt wired the system federation officials what they declared was an ambiguous message in which he merely declared that officials of the Harriman lines thought they always dealt fairly with the men and if the workers did not realize this, the officials saw no way of convincing them.

VICTIMS FOUND

Police Baffled By Triple Tragedy at Kelley's Island

Sandusky, O., Sept. 29.—Bodies of two more murdered men were found cast up on the beach of Lake Erie at Kelley's Island, making three of the missing five Italians now known to have been slain last week. The newly discovered corpses have not yet been identified. The sheriff learned that the trunks of some of the five men who roomed together at the island and of whom Antonio Vitano, found dead, last Saturday, was one, had been shipped to Cleveland by their fellow countrymen, and he is working on the theory that the two remaining members of the quintet, not yet accounted for, may be in Cleveland and know something of the triple killing, and he went there to investigate.

The Theatre

The Colonial.

It seems like the days of yore once again during the last week to one attending the attraction at the Colonial, the only vaudeville house in the city, in that the acts have jumped from the mediocre to the kind which during last winter made the house one of the most popular in the city. Coming directly after a big three nights run of minstrelsy at this house is Jos. Keller & Co., a trio of performers who are away above par in excellence. Three people constitute the company which represents a laughable little rural skit, "A Rural Substitute." It contains a laugh in every line and is well worth seeing. With the vaudeville is run two reels of motion pictures.

The Mystic.

The thrilling scene of two locomotives meeting in a head on collision was the feature film at the Mystic Thursday night. The picture was taken at a recent railroad men's meeting in Indianapolis. To see the huge engines meet while going at full speed is to cause your heart to jump loudly against your ribs. The feature was in the Vitaphone company's monthly review, "The Squaw's Love" was a beautiful story of Indian life with many thrilling situations. The cause chase was noteworthy.

The Utahns.

"The Girl, Knot" a farical comedy headed the bill at this pleasant little play house Thursday evening. A father who is particularly anxious to

that his daughter marry a certain young man from a plot by which he forces their marriage. The plot is unique and a scream. Of course the marriage proves a success in every way and all live happily, etc. The other film "Bill's Ward" was a story filled with genuine heart in a father who is particularly anxious to

have made a rich "strike" in the western gold fields. Bill is made the guardian of the partner's daughter. The daughter grows to womanhood and Bill falls in love with her. She refuses to marry him. Bill's nephew steps in at this point and the ward and nephew become enamored of each other. Bill's jealousy is aroused but when the nephew saves him from the hands of a band of rough cowboys he gives his ward to the nephew.

The Luna.
The Luna had two particularly interesting films of the latter order on the program Thursday night which attracted large crowds of amusement seekers throughout the evening. The Luna is fast becoming more popular and draws larger crowds each evening. "A Tragedy at Sea" a most thrilling story along dramatic lines proved the headliner. "Two Fugitives" was a breezy love story filled with human interest of the best sort. Two good ones are promised for tonight's billing.

S.S.S. DRIVES OUT MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourishing elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the flesh. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. S.S.S. is especially adapted to the cure of malarial troubles because it contains no harmful minerals, and while ridding the system of the malarial germs, S.S.S. builds up the entire constitution by its fine tonic effects. If you are suffering with Malaria begin the use of S.S.S. and rid yourself of this weakening disease. Book on the blood and any medical advice free. S.S.S. is for sale at drug stores.

How to Live Long—and Feel Young

Thousands of men and women who have passed their allotted "three-score-years-and-ten" owe their longevity to Duffy's Pure Malt Whiskey.

And with their advanced years has not come the daddling helplessness of old age; the spirit of youth has stayed with them.

At the Duffy Malt Whiskey Co.'s Laboratories in Rochester, N. Y., there are files of letters from men and women of over seventy—many who have almost reached the century mark—who used Duffy's Pure Malt Whiskey fifty years ago, and today in the sunset of their lives, they are still using it, still depending on it—for the good it has done and is doing them.

One of more than passing interest is given here: "I have been a constant user of Duffy's Pure Malt Whiskey for many years, and although I am now past 78 years of age and soon will reach my seventy-ninth birthday, I can outwalk most of the young men of to-day. My strength and activity and my ability to enjoy life are due to the use of your valuable whiskey. I am now negotiating with a view of starting a fruit farm in either Washington or Michigan, as I feel like a young man with all the world before me. There is one thing certain, I will always keep Duffy's Pure Malt Whiskey with me, and I can conscientiously recommend it to all old people if they wish to keep young and vigorous."

Manager Larcombe wishes it announced that all those who wish to tryout with the team will report at the high school lower campus Saturday evening when the first road work will be started. The Democratic press is so per-
sistent in reiterating the false statement
that Harmon has taken the burden
of the election from the shoulders of the
Democrats and placed it on the cor-
ners of the state treasury, that some voters may
believe it. The facts are:
The taxes on homes, the Willis and
the county treasuries and the amount is determined by the
authorities. Real estate con-
tributes nothing to the support of the
Democratic party.

William Leeds, of Zanesville,

It might be remarked he will be

Bill Finley would say, do not

They are not organization men, but
they are appointees of the governor

the regular state machine.

The Harmon effort to win the pres-

especially the Canadian farmers. The

The governor seems to be about

THE NATIONAL GAME.

One reason that baseball has such
a firm hold on the American people
is evidenced just now by the exciting
race between New York and Chicago
for the pennant in the national
league. Just as Gotham had com-
pleted her plans for crowning her
heroes, along comes Chicago and in
two days has beaten the New York-
ers twice, knocking out their premier
pitchers, Marquard and Mathewson.
It would be just like fate to turn the
Giants upside down and let the Cubs
win the flag. But Chicago has nine
games yet to play and New York 14.
It is almost beyond peradventure that
Pittsburg should come up from the
rear, and take the place of either, but
stranger things have happened. The
best sporting "dope" figures the
Giants to win, and it looks as though
they will. But it is a pretty race, a
fair and square race, with none of
the hippodrome qualities that steals
into horse racing and has almost
ruined that once sport of kings. Base-
ball is the national game because it is
clean and fast and every man in it
plays to win.

A SMOOTH TRACK.

The annual track inspection of the
Pennsylvania lines begins next week
and cash prizes of liberal sizes are
to be awarded the men whose sections
are kept in best shape. The decision
is to be made by the officials of the
road making the journey in a special
train. If the decision were left
to the traveling public the ward would
go some where between Dennison and
Chicago, and certainly not east
thereof. The best stretch of smooth
track—and the smoothness is what
the public is interested in, rather
than the quality of grass growing at
the edge—is from Dennison to Co-
shocton. Through New Jersey flat
lands where the road should be as
smooth as a billiard table. It is not
to be considered in the same class
as the Dennison-Coshocton run. Pos-
sibly natural advantages have been
better taken care of, but certain it
is that this stretch of track is one
of the best in all the world.

It would doubtless be proper as well
as appropriate to remark, anent the
Italian-Turkish war score, to remark
that Turkey showed the white feath-
er.

**Use TIZ-
Smaller Feet**

Sore Feet, Tender Feet and Swollen
Feet Cured Everytime. TIZ Makes
Sore Feet Well No Matter
What Ails Them.

Everyone who is troubled with sore
sweaty, or tender feet—swollen feet
—smelly feet, corns, callouses or bun-
ions can quickly make their feet well
now. Here is instant relief and a
lasting permanent remedy—It's called
TIZ. TIZ makes sore feet well
and swollen feet are quickly reduced
to their natural size. Thousands
of ladies have been able to wear
shoes a full size smaller with perfect
comfort.

It's the only foot remedy ever made
which acts on the principal of draw-
ing out all the poisonous exudations
which causes sore feet. Powders
and other remedies merely clog up
the pores. TIZ cleanses them out
and keeps them clean. It works
right off. You will feel better the
very first time it's used. Use it a
week and you can forget you ever
had sore feet. There is nothing on
earth that can compare with it. TIZ
is for sale at all drug stores 25 cents
per box or direct if you wish from

STOMACH DISTRESS INDIGESTION AND DYSPEPSIA VANISH

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't sit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

STOMACH DISTRESS INDIGESTION AND DYSPEPSIA VANISH

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.
